Catarrhal Gastritis

"For two years I was in a
very bad condition. I was
treated by a number of emi-
nent physicians for chronic
catarrhal gastritis and dilata-
tion of the stomach, and ob-
tained no relief. I grew grad-
ually worse, my breathing was
so difficult at times that I
thought I would die. My heart
was in very bad condition from
poor circulation and pressure
of the dilated stomach. I de-
cided it was only a matter of a
very short time with me. I
was advised to try Dr. Miles'
Nervine and Heart Cure, and
before I had finished taking
one bottle of the medicine I
felt like a new being. I took
eight bottles of the medicine,
and am entirely cured, for a
matter of about \$8.00 in the
face of two hundreds spent in
the two years before without
relief."

MUTINY ON THE TENNESSEE.

Stokers Refused to Give the President a
Forced Draught Run and Were Arrested.

Newport News, Va., Nov. 30.—Sixty-
of the stokers on the cruiser Tennessee,
which accompanied the Louisiana, bear-
ing President Roosevelt, on his trip to
Panama and Porto Rico, rebelled Monday
morning when the order came for a
four hours' run under forced draught,
and refused to do their work.

The men were put under arrest and
have since been confined in the brig.
The Tennessee came here Monday
morning following the run, and it has
been noticed that although the men of
the Louisiana have had shore leave since
they arrived, only a very few of the
men from the Tennessee have been
ashore.

Owing to the mutiny of the stokers
the Tennessee did not participate in the
run, but she managed to make a short
trip to the other vessels, entered the
cove, and then returned to the ship.
Very little can be learned about the
situation on board the Tennessee, and
it is not known when the men will be
court-martialed, but it is expected that
they will be tried while the vessel is
in Hampton Roads. The vessel is taking
on coal.

OUR CANDY IS PURE

The real combination of yellow and
red velvet used as a piping appears on
the collars of handsome suits. These
shades are particularly good style on
a gray and black checked costume.

The real touch of smartness on tweed
suits is a vivid green or yellow collar
edged with soutache. Broadcloth sil-
lows of more elaborate trimming than
the rougher materials, and one's fancy
may have full play on such a gown.

Street skirts are laid in every known
plait to make a tremendous spring
from the hips. Box or single, inverted
and outside, stitched and loose, all
sometimes on the same skirt, is the
fashion.

The smart little hat illustrated is one
of the fetching shapes of the season.
It is carried out in black silk beaver
and trimmed with a scarf of grass
green chiffon that falls low over the
hair. Shaded green and black wings
are perched jauntily at one side.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now
Facts of Science.

It is the rarest thing in the world for
a man to be necessarily bald. No man
whose hair is not dead at the roots, need
be bald if he will use Newbro's Herp-
icide, the new scalp antiseptic. Herp-
icide destroys the germ that cuts the hair
off at the root and cleans the scalp of
dandruff and leaves it in a perfectly
healthy condition. Mr. Mannett, in the
Maryland Block, Butte, Mont., was en-
tirely bald. In less than a month Herp-
icide had removed the enemies of his
growth, and nature did its work by cov-
ering his head with thick hair in an in-
credibly short time. In six weeks he had a normal
suit of hair. Sold by leading druggists

mitted to the house of correction, Rut-

Building in Brattleboro.

Building operations in Brattleboro
during the past year have amounted
close to \$150,000. Fully half of this
sum is represented by the new American
building and annex, which Adams &
Crosby have well along toward com-
pletion. These two structures, which form
one of the most important additions to
the town in recent years, will represent
when finished an expenditure of about
\$75,000, aside from the cost of site
which they are located. A large num-
ber of the other buildings constructed
in Brattleboro during 1906 are mod-
erate-priced dwelling houses, the kind
that indicate a steady, healthy growth
in the community. The new houses are
located in various parts of the town,
although most of them are on the south
side of Whitehall street. No entirely
new factories have been built in Brat-
tleboro within the past year, but an
important addition to the plant of the
Essey Organ company is now in process
of construction. The Central Vermont
railroad company built a new freight
house early last summer and Manley
Brothers are now enlarging their auto-
mobile garage in the rear of the Brooks
house. A carcase of the town shows
that there are 22 houses either built
during the past year or at present in
the process of construction.

Repairing West River Railroad.

A large force of men are working on
the West River railroad between Brat-
tleboro and West Dummerston. About
4,000 new ties are now in Brattleboro
and distributed along the road-bed and
the ties will be laid as the work pro-
gresses. The 46-pound rails between Brat-
tleboro and West Dummerston have been
ordered taken up and replaced with iron
heavy enough to allow the use of a
standard mogul locomotive. This will
be done this fall if the weather permits.

In discussing the shortage of freight
cars, about which many shippers are
complaining, the West River railroad
men say that this shortage has
been general throughout the country
although at present it is not nearly as
bad as it was two months ago. Brat-
tleboro shippers felt the shortage nearly
as much as did those on the West River
line and it is only within a few weeks
that there has been any great relief.

Valuable Relics in Brattleboro Library.

The late Judge Hoyt H. Wheeler,
of Brattleboro, recently presented the
Brattleboro free library a number of
interesting and valuable relics. Relics
of the Civil War include a Confederate
furlough from Fair Oaks, an order for
special diet at Fort Wood, a Confed-
erate treasury note of \$50, a blank Con-
federate bond with letter on back, a
manuscript note of the War of 1812,
a note on Sherman's march to the sea,
a Frederickburg banner of July 14,
1862, and the message of Governor
Letcher of Virginia, 1863. Relics of
the war with Spain include a napkin
from the table of the commander of
the Spanish warship, Cristobal Colon,
at Santiago, and the emblem of an
officer of that warship. There is also a
case of Continental money. In a case
of relics of the family of Maj. John
Adams is a sampler of Susanna Fox,
1803, a watch owned by Ebenezer Fox,
and a housewife of Ebenezer Fox.

Famous Strike Breakers.

The most famous strike breakers in
the land are Dr. King's New Life Pills.
When liver and bowels go on strike, they
quickly settle the trouble, and the pur-
ifying work goes right on. Best cure
